Army Rules

HARBINGERS OF DREAD

If your Army Faction is Chaos Knights, each unit from your army with this ability gains Dread abilities, depending which are active for your army. The Deathly Terror ability is active for your army from the start of the battle. In addition, at the start of the first, third and fifth battle rounds, you can either select one of the other Dread abilities or randomly select two Dread abilities to apply by rolling two D6 and applying the results rolled, from those numbered 1–6 on the right.

Any Dread abilities that have been selected are active until the end of the battle. You cannot select the same Dread ability more than once, and any duplicated Dread abilities (as a result of randomly selecting them) have no additional effect.

DREAD ABILITIES

DEATHLY TERROR (AURA)

While an enemy unit is within 9" of this model, worsen the Leadership characteristic of models in that unit by 1.

DESPAIR (AURA)

While an enemy unit is within 9" of this model, worsen the Leadership characteristic of models in that unit by 1. This is cumulative with the Deathly Terror ability (see above).

DOOM

Each time this model makes an attack, if the target of that attack is Battle-shocked, add 1 to the Wound roll.

DARKNESS

This model has Stealth.

DISMAY (AURA)

In the Battle-shock step of your opponent's Command phase, for each enemy unit that is below its Starting Strength and within 9" of this model, that enemy unit must take a Battle-shock test.

DELIRIUM (AURA)

While an enemy unit that is Below Half-strength is within 9" of this model, each time that unit fails a Battle-shock test, it suffers D3 mortal wounds.

DOMINION

Add 3" to the range of this model's Aura abilities.

DREADBLADES

If every model in your army has the Chaos keyword, you can include either 1 Titanic Chaos Knights model or up to 3 War Dog models in your army, even if they do not have the Faction keyword you selected in the Select Army Faction step. None of these models can be your Warlord, and they cannot be given Enhancements.

SUPER-HEAVY WALKER

Each time a model with this ability makes a Normal, Advance or Fall Back move, it can move through models (excluding Titanic models) and sections of terrain features that are 4" or less in height. When doing so:

- It can move within Engagement Range of enemy models, but cannot end that move within Engagement Range of them.
- It can also move through sections of terrain features that are more than 4" in height, but if it does, after it has moved, roll one D6: on a 1, that model is Battle-shocked.

DETACHMENT RULE: MARKED PREY

At the start of your Command phase, select one unit from your opponent's army. Until the start of your next Command phase, each time a War Dog model from your army makes an attack that targets that enemy unit, if that unit is visible to the attacking model, that attack has the [SUSTAINED HITS 1] ability.

While using the Houndpack Lance Detachment, the following rules apply:

- Your army must include three or more War Dog units.
- War Dog units from your army have the Battleline keyword.
- When mustering your army, select three War Dog units from your army. Until the end of the battle, those units have the Character keyword.

Stratagems

Vox-Howl 2CP

HOUNDPACK LANCE - BATTLE TACTIC STRATAGEM

WHEN

Start of the Shooting phase or the start of the Fight phase.

TARGET

One War Dog Character unit from your army.

EFFECT

Each enemy unit within 6" of your unit must take a Battle-shock test. Each friendly War Dog unit that is within 6" of your unit and is Battle-shocked must take a Leadership test; if that test is passed, that unit is no longer Battle-shocked.

RESTRICTION

You can only use this Stratagem once per turn.

Hungry for Combat 1CP

HOUNDPACK LANCE - BATTLE TACTIC STRATAGEM

WHEN

Start of the Fight phase.

TARGET

Two or more War Dog units from your army within Engagement Range of the same enemy unit.

EFFECT

Select one enemy unit within Engagement Range of those War Dog units. Until the end of the phase, models in those War Dog units can only target that enemy unit, but each time a model in one of those War Dog units makes an attack, an unmodified Hit roll of 5+ scores a Critical Hit.

Cunning Hunter 1CP

HOUNDPACK LANCE - STRATEGIC PLOY STRATAGEM

WHEN

Your Movement phase, just after a War Dog unit from your army Falls Back.

TARGET

That War Dog unit.

EFFECT

Until the end of the turn, your unit is eligible to shoot and declare a charge in a turn in which it Fell Back.

Animalistic Rage 1CP

HOUNDPACK LANCE - BATTLE TACTIC STRATAGEM

WHEN

Your opponent's Shooting phase or the Fight phase, just after a War Dog unit from your army that has not been selected to attack this phase is destroyed.

TARGET

That War Dog unit. You can use this Stratagem on that unit even though it was just destroyed.

EFFECT

Before resolving your unit's Deadly Demise ability, it can either shoot or fight. When doing so, it must target only the enemy unit that just destroyed it, and can only do so if that enemy unit is an eligible target. After it has done so and after any Consolidation moves have been made, resolve your unit's Deadly Demise ability as normal.

Harrying Hounds 1CP

HOUNDPACK LANCE - STRATEGIC PLOY STRATAGEM

WHEN

Your opponent's Movement phase, just after an enemy unit ends a Normal, Advance or Fall Back move.
